**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a student, reliable internet is critical. Initially being stuck with only AT&T and Comcast, I had terrible service (and customer service) and paid a LOT! At that point, I didn't have an option to move because I would be moving from a big company to big company. Once I moved, I found Sonic and other local providers. Sonic is a reliable provider and I like having the option of choosing who I want to do my business with. Everything is already so expensive and having an affordable option is important as having a good service!!! Broadband would make my service more affordable for a better service. Please don't let us students have to go back to AT&T...This day and age, having a good internet service is critical to education! Don't hinder our education by removing local competition!!!
